

INGROUND LINER MEASURING FORM

TIPS FOR MAKING MEASURING YOUR POOL EASIER AND MOST ACCURATE!

Write clearly,
using black ink

Keep a copy of the
measurements when
you're done

Measure in feet &
inches, rounding up
to the nearest
1/4 inch

- IF YOU HAVE A PREVIOUS POOL LAYOUT OR DIG SPEC: Ignore it. Actual measurements of the pool have to be made even if original pool plans are available due to the fact that variances often occur during construction.
- Supply all measurements in feet & inches, rounding measurements up to the nearest **1/4 inch**.
- Always measure from the floor to the bead receiver. Do not measure to the coping/top of the deck.
- Write legibly, using Black Ink only (No pencil or felt-tip marker). If we cannot read it or if your (6)s look like (0)s, costly errors can be made and liners are non-refundable.
- Make copies of everything! If we have questions regarding your measurement, you will need to be able to reference the material in question.
- Don't leave information out! It can delay your quote and order as well as affect the liner ordered.
- If you get stuck along the way, reach out to us at any time! We're here to help!

DO YOU HAVE A COVE

MEASURING THE SHALLOW END COVE:
(if applicable; not common)

The COVE OFFSET is how far the cove comes out into the pool.

The COVE DEPTH is the distance between the pool floor and the top of the cove where the cove meets the wall.

DO NOT measure on an angle. See tip below.

Enter measurements on page 3.

MEASURING TIP

BE SURE TO TAKE ALL MEASUREMENTS HORIZONTALLY!

If your quick checks above are off this may be why! See the image to the right for correct and incorrect measuring examples!

Use A and B from your created reference points; NOT The Hopper Measurements on the previous page.

Use Feet and Inches, rounding up to the nearest 1/4 inch. (Step 3 in Measuring Guideline Document)

FINAL CHECKS

1. DO YOU HAVE VINYL OVER STEPS?

YES NO

If Yes, please submit additional vinyl over step measurement form as well,

2. **REQUIRED CHECKS**

The below measurements are required based on your HOPPER TYPE:

- J + K + L + M must equal B for Standard Hopper.
- J + K + L + M + SL must equal B for a Safety Ledge.
- H + G + I must equal A (without a safety ledge)
- SL + H + G + I + SL must equal A for Safety Ledge.
- R+U+R must equal B

SKETCH YOUR POOL

Indicate your pool's deep end, shallow end, the approximate location of each point (numbered) around the perimeter of your pool, and the location of your AB reference line with "A" and "B" properly labeled.
